
PokerTH Fangemeinde

Posted by tdhp - 2007/10/13 04:23

Hi an alle,

wie im Gästebuch schon beschrieben, sind wir eine (noch) kleine Poker-Fan-Gemeinde, die sich vor allem auf die Software "PokerTH" spezialisiert hat.

Neben regelmäßigen Turnieren bieten wir auch eigene Bedienungsanleitungen für PokerTH (Derzeit für 0.5 und 0.6 beta), sowie Support zu diesem OpenSource Programm.

Derzeit arbeiten wir mit ein paar Foren zusammen, sodass sich immer Spieler für Turniere finden..

Habt auch Ihr Interesse, an Turnieren teilnehmen zu wollen, dann registriert euch kostenlos unter:

<http://pokerfans.pytalhost.net> (Wir suchen noch ziemlich viele User :blink:)

@Admin(s):

Echt klasse Programm. Weiter so!

Würden es begrüßen, uns als anerkannter "Partner"/ anerkante Fangemeinde von PokerTH bezeichnen zu dürfen.

Mit freundlichen Grüßen

=====

Hi,

I was going to say: if you want a lot of new members for your poker(th) fan community to play tournaments with I'd recommend that you don't post in German only, but your site is also completely in German, so...

Anyway, if you have good instruction manuals for pokerth, you could also contribute a few entries/corrections to the wiki on this site. This may help you in getting some attention from pokerth users.

Regards,
heyn

There's the "problem". Whether the instruction manuals are good depending on the user reading this. But I attach the both manuals we wrote and then everyone can write a commentary if he/she wants

PokerTH Manuals:

I was just looking for the documentation, and if I enter "pokerth" as search keyword there is no documentation for PokerTH linked (as guest).

But I found it manually, so as I said, nevermind.
