
Make the text more consistent

Posted by andy - 2007/12/08 18:04

Hi, first of all thx for this great game, nice job :)

Two tips to make the text more consistent:

- Miss a case-sensitive policy, in settings sometimes every word start with capital, others only the first one.
- To enable the sound, the check say "Play sound effects" but in log and irc settings there is "Enable/Disable" so i think that it should be "Enable Logging" without "disable"

That's all. :)
