Hi,

I revisited some old translations and realized some weren't good enough (anymore). For example, I did translate toolbox initially, keeping in mind that the boxes were mostly for extra info (log, hand ranking) but that doesn't apply anymore, so I left toolbox untranslated like it is for example in the German translation. Also fixed some other small issues.

Regards,

heyn

Hi doitux,

Thanks for that, and sorry about the late revising.
