
\ "return\" -keystroke for starting next round

Posted by krabbel - 2008/06/13 00:16

Hey there,

hopefully no one has already posted a similar request, or I did not find the correct key/shortcut:

Please support a key-stroke for starting next round if "settings"->"pause between hands" is enabled, the "enter" e.g. "return" key would be nice.

regards,

krabbel

Hi Krabbel,

The Ctrl (control) key works for this.

Regards,
heyn
