
Play online with more than 1 client

Posted by mase - 2008/07/04 11:55

Hi!

Is it possible to play online with more then 1 client in a LAN?

My wife wants to join the online games.

Do you speak about "LAN game" or "internet game"?

Yes, it works!

Tested today with my wife.

I thought, there could be a problem with the same external IP.
