
Players not playing

Posted by mase - 2008/07/06 17:10

Hi!

Today it was 2 times in one hour, that players are in a game, they are not playing. They are not responding to chat messages, and always let the time fall until fold.

I hate this, because the others cannot play normally any more.

It is really time for a ranking list!

The game admin can kick these players with "/kick playername" in the chat. In a future version there will be a possibility to vote for kick a player by click on his avatar.
