hi there !

To compile or use PokerTH you need following libs:

- Qt version >= 4.3.
- zlib version 1.2.3
- libcurl version >= 7.16
- gnutls (e.g. version 2.2.2)
- libboost_thread, libboost_filesystem, libboost_datetime, libboost_program_options, libboost_iostreams(version >= 1.34.1, 1.35.0 recommended)
- libSDL_mixer, libSDL

make sure u've got all of this and try again
