
New to Linux, How Do I Install in Kubuntu?

Posted by Dale - 2008/07/13 03:06

What commands do I type in Konsole to Install in Kubuntu 8.04???????

Thanks, Got it figured out.

Suggestion: On New Version of PokerTH.....Make the Money you win, Accumulate & or Add Up. In other words, Lets say I win the table (beat other 6 players) & end with 33,000. Next time I log in I have 33,000 in my Bank Account. Would make it more interesting for sure.
