
cash games support?

hi,

love the program!

i`m planning to make a poker lan party soon

, will it be possible in the future to set up server so you can play cashgames?

maybe that the server acts as a cashier and has to give an allow button for the rebuy when it is requested?

regards.

I'm sorry but we do not support any kind of "real" cash involvement. This game is just for fun :-).

"Cashgame" does not mean that you play with real money.

I would like to have a reloadbutton too!
