
Same hand

Posted by Burnum - 2008/06/24 14:08

i had exactly the same hand for a few rounds. ace of spades and 7 of clubs

it hasn't happened before and it isn't happening anymore but i found it weird at the time, or maybe im just really really lucky

The "same hands" problem happens to me once awhile. The frequency is about one incident per 2 7-player internet games.

Normally, the same hands repeat once and then I will get a different hands after the repeat.

This is some kind of display synchronization problem which sometimes occurs, but we have not been able to reproduce it to find the bug yet. The cards of the last round are still being displayed, but the server internally has already handed out new cards (they are just not shown).

If you find a way to reproduce this, please let us know.
