
can't connect to internet games

Posted by showtime - 2008/04/12 16:40

hi guys,
i can't connect to internet games, the software doesn't react when i click on enter game (spiel beitreten) reinstallation doesn't change anything...can someone help me?

I have the same problem. I opened the port on my firewall, just to be sure, but it can't resolve the server address.

Anyone with some helpful ideas?

If the name resolution fails, please change the internet server address in the configuration options from "pokerth.6dns.org" to "pokerth.dyndns.org". The name resolution problem will also be fixed in the next release.

You can never connect to any game? Or is it a temporary problem?

Please take a look at: http://www.pokerth.net/component/option,com_fireboard/Itemid,85/func,view/catid,13/id,2161/

Maybe this could be a fix for the problem?
